“My laptop has been STOLEN!”
“And there is sensitive data on it!”

Northwestern’s Data Encryption Policy

goes into effect April, 2009

If you store unsecured information on your computer, it **MUST** be protected.

Learn more about the policy at:
http://www.it.northwestern.edu/policies/dataencryption.html

**Have more questions about encryption?**
Come to the NUIT Tech Talk on February 3!
Encryption: Ensuring Information Security Webinar

* A summary of the new University encryption policy
* Devices and data that need encryption
* Choosing encryption software that is right for you
