Michael Jones
*Technical Services Analyst*
Today’s Agenda

• Mobile Services at NU
  – E-mail and Calendar
  – WiFi
  – Mobile App
  – IP-Based Services
  – Conferencing
  – VPN

• Popular Mobile Devices
  – iPhone/iPod Touch
  – BlackBerry
  – Android Devices
  – Tablets, Netbooks, and Laptops
  – Choosing a mobile device

• Securing Your Device
Mobility at Northwestern

- “Mobility” refers to more than just mobile devices
- NUIT offers several services to help you be mobile
- Mobility gives you access to a range of services and tools
  - Mobile conferencing
  - Phone services
  - Northwestern Mobile app
  - Working remotely
  - iTunes U (NUIT podcasts) and Northwestern YouTube
  - Twitter (NU1HELP, NU_NUIT)
Mobile Services: E-mail and Calendar

• Using IMAP, you can use a mobile device to access your e-mail, but not remove it from the server, so you can access it later from WebMail or another e-mail client.

• Meeting Maker calendars can be accessed on mobile devices using NotifyLink or via Meeting Maker online.

• @u calendars can be accessed on mobile devices.

• Set-up guides available on the NUIT Web site.
Mobile Services: WiFi

- Northwestern’s wireless network supports 802.11b/g/n connectivity
- There may be a huge variety of mobile devices, but the settings required to connect to wireless are consistent:
  - Network Name (SSID): Northwestern
  - Network Type: WPA2 Enterprise
  - Encryption Type: AES
  - Authentication: 802.1x
  - User Name: NetID
  - Password: NetID Password
  - EAP Type: PEAP
  - Inner Authentication Method: MSCHAP v2
  - Security Certificate: VeriSign Class 3 Secure Server CA – G2
Mobile Services: IP-Based Services

- Voice over IP (VoIP) and Session Initiation Protocol (SIP) technology integrates your work phone with the rest of the NU network
- Allows you to easily establish conference calls
- Forward calls to your mobile device
- Many handset and service options to meet your needs
- Watch the recent NUIT Tech Talk on [VoIP](#) or visit the [Web site](#) for more details on service and ordering
Mobile Services: Conferencing

- **Conferencing** has come a long way from meeting attendees all sitting together in one room
- **Webconferencing** (Web meeting)
  - Used for NUIT Tech Talks
  - Enables you to share PowerPoints, chat with the audience, conduct polls, and much more
- **Videoconferencing**
  - Enabled in several conference rooms around campus
  - Audio/visual intensive meeting
Mobile Services: Conferencing

• **Audioconferencing**
  – Northwestern has partnered with PGI to provide discounted, secure teleconferencing services
  – VoIP-based phones have additional conferencing functionality

• **Webcasting**
  – Streaming online presentation

• **Desktop Videoconferencing**
  – Blends videoconferencing and Webconferencing
  – See previous [NUIT Tech Talks](#) recordings for details
Mobile Services: VPN

- VPN allows you to appear as though you were on campus
- Securely access University services remotely
- Enables remote desktop connections from off campus
- Talk to departmental tech support for instructions on remote connectivity
- Visit the [VPN](#) page for more information and some setup tips
Mobile Services: Northwestern Mobile

• Easy access to:
  – NU Directory
  – Maps
  – Campus news
  – Sports
  – Events
  – And more

• Available for iPhones via the App Store, Blackberry devices via App World, and Android devices via the Android Market

• Can also access features by going to mobile.northwestern.edu in your mobile browser
“Smartphones”

- “Smartphones” provide more than just the ability to make calls
- Allow constant access to your e-mail and calendar and put the Internet at your fingertips
- Most offer third-party applications, making them extremely versatile
- Access to a range of services
  - E-mail
  - Calendar
  - Northwestern Mobile Application
  - Lecture Capture
  - Maps
  - Web
iPhone/iPod Touch

• Why is the iPhone useful at NU?
  – Access to Northwestern Mobile App
  – Access to Northwestern e-mail
  – Synchronization with your MeetingMaker calendar
  – Full compatibility with Northwestern services

• iPhone/iPod Touch set-up instructions
BlackBerry

• Why is the BlackBerry useful at NU?
  – Access to the Northwestern Mobile App
  – Access to Northwestern e-mail
  – Synchronization with your MeetingMaker calendar
  – Full compatibility with Northwestern e-mail
  – Compatibility with Northwestern wireless and VPN dependent on the model

• [BlackBerry set-up instructions](#)
All currently available Android devices offer full compatibility with Northwestern e-mail and wireless.

Calendaring support available through NotifyLink.

Northwestern Mobile app now available in the Android Market.

[Android set-up instructions](#)
Tablets, Netbooks, and Laptops

• Why are these devices useful at Northwestern?
  – Connect wired or wirelessly to NU Network on or off campus
  – Access to Northwestern online resources

• Tablets/Netbooks
  – Cheaper than a full laptop
  – Optimized for Internet browsing and media consumption

• Laptops
  – Most common mobile computer
  – Access to all tools you use on a daily basis
Choosing a Mobile Device

• With so much variety, what do you look for in purchasing a new device?
  – 802.11 b/g/n support for access to Northwestern’s wireless network
  – Calendar syncing
  – App selection
  – Look and feel
  – Carrier compatibility: Most phones offered through Verizon aren’t compatible with AT&T and T-Mobile’s network (GSM v. CDMA networks)
Secure Your Mobile Device!

- As devices get smaller and more mobile, they become easier to lose
- Phones contain personal data
  - Carrier and account information
  - Contacts’ information
  - Passwords if you ever go to secure sites through your mobile browser
- Be careful with third-party apps
- Smartphones are small computers and can get spyware and malware infections
