Date: Tue 9/27/2005 1:34 PM  
Subject: SPSS 13.0.1 available from NUIT

This is a reminder that as of September 1, 2005, Northwestern University Information Technology (NUIT) began providing the latest version of SPSS for Windows and Macintosh, 13.0.1, with a new pricing structure. As a current license holder, you are eligible to renew your license, which includes version updates through August 31, 2006, at the new \$77 per license cost.

This price is also available for new licenses and is a substantial decrease from previous annual license fees.

To obtain a new license or renewal license for SPSS, please visit NUIT's site licensed software site at < <http://software.northwestern.edu/>> and order an Initial/Renewal License specific for the fiscal year (FY) for which the software is needed.

For more information about the latest version and new pricing structure for SPSS at Northwestern University, visit NUIT's What's New & Changing at < <http://www.it.northwestern.edu/transitions/2005/spss-13-0-1.html>>
