LABMAN Conference

NUIIT Academic Technologies is sponsoring LABMAN 2002, the third annual Great Lakes Academic Computer Lab Management Conference, which takes place Monday, June 24 and Tuesday, June 25 on the Evanston campus.

LABMAN is a small, single-track conference for those who manage, supervise or otherwise assist with public computing in an academic environment.

Although the official registration deadline has passed, a limited number of late registrations are being accepted. The $70.00 registration fee is due by next Friday, June 14.

This year's presentations include "Designing Computer Labs with the Learner in Mind," "Hardware and Software Imaging and Management of Windows PCs," "Print Management," "UNIX/Mac OS X Management," and "Deploying Laptops on Campus." Hardware and software vendors will be present to discuss new technologies.

For complete conference details, including registration and presentation information, see http://labman.northwestern.edu/.
