To all NUIT staff:

To help assure that NUIT staff are kept informed of significant server downtime or unplanned service outages, it is recommended that interested staff subscribe to the nwu-comp-announce list.

This list is connected to the nwu.comp.announce newsgroup and is used to notify interested parties of server and network outages and other important issues affecting systemwide performance.

Although subscribing to nwu-comp-announce is not required, it is highly recommended that all NUIT staff stay informed of these issues so that accurate information is disseminated both internally and externally as issues arise.

To subscribe, send email to listserv@listserv.it.northwestern.edu. Leave the SUBJECT line blank and do not use a signature.

In the body of the message, type:

    SUBSCRIBE NWU-COMP-ANNOUNCE Firstname Lastname

You will receive an automatic acknowledgement message from the list server.

For general information about listservs at Northwestern, see http://www.tss.northwestern.edu/conferencing/listserv/.
